SNAIDERO

Imagine your architect's relief after you announce that your kitchen would be this new KUBE design by Snaidero. KUBE has a clear message of modernity, with an exaggerated aluminum toe-kick that not only protects the kitchen from scuff, but adds to a feeling of suspension and lightness. A gently sloping hood embraces the sink area, which can be crafted in stainless steel, Corian®, quartz, Ecorite®, marble, or laminate, while lighting is integrated to show off the elm wood's mix of horizontal and vertical grain. KUBE is available in many other compositions as well.
