LOS ANGELES EDITION

ALL-IN-ONE

An open plan makes this kitchen the perfect study in sophisticated family living. Designer Lorena Polon, of Staldero USA New Jersey, used larch wood with a wire-brushed, coffee-brown finish from the company's IDEA by Pininfarina Design line to lend a furniture-inspired look to the cabinetry, seamlessly integrating the kitchen with the living and dining areas. "It was important to achieve one, large harmonious space," says Polon. "The long, lean Italian styling really pulls everything together."
