# cutting-edge cabinetry

A MENU OF STORAGE-SMART STYLES IN  
TASTEFUL DESIGNS TO SUIT EVERY NEED

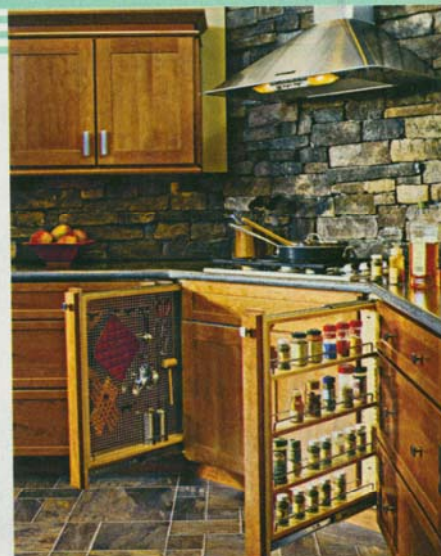

## MOLTO EFFICIENT

Snaidero USA's Gioconda features a double-level island equipped with a handy open beverage storage and a large chest of drawers. It's topped with a natural beech worktop on one level and Ecotek—a blend of polyester resins and minerals—on the other. An overhead potrack keeps tools and cookware close at hand while providing task lighting for the island worktop. [snaidero-usa.com](http://snaidero-usa.com); 877-762-4337

## ARTFUL ACCENTS

Created to enhance the frameless Millennia cabinetry, Canyon Creek's new stainless steel and aluminum accents maximize storage in even the smallest kitchens. Stainless steel doors and floating shelves as well as aluminum base structures and doors with vertical lifts are all on the menu.

## TERRIFIC TASKMASTER

Created to make cooking easier, Armstrong's ChefCenter™ offers task-focused design. Pullout fillers with shelves or perforated organizers are modular and scalable, and come in a "Family Chef" or "Epicure" configuration. [armstrong.com/cabinets](http://armstrong.com/cabinets);

## EASY ELEGANCE

Classically rendered with clean simplicity, SieMatic's BeauxArts collection balances function and aesthetic with mass appeal. Neutral tones finished in smooth matte lacquer, such as the open shelving on this island, enhance without overwhelming. Other finish choices include warm hues of light brown or green, pale yellow and light blue.
