ITALIAN STYLE

The Ola 25 L.E. kitchen designed by Paolo Pininfarina for Snaidero embodies the engineer's signature automotive sensibilities in a heart-racing high-gloss red lacquer. The fully tailored, modern kitchen is defined by creativity, technical innovation, emotion and functional rigor. The kitchen is also available in a matte micalized lacquer finish, with a quartz stone or glass worktop. snaidero-usa.com

With its whimsical, flowing lines, the soft and curvy Chagall sofa from Provasi takes a painterly approach to furniture design. The movement, which is at once harmonious and geometrical, is enhanced by subtle colors, from gray to ice white. Says Gabriele Provasi, the head of the design department, "We have drawn inspiration from every form of art—cinema, music and fashion—always keeping an eye on the past and tradition." provasi.com
