SNAIDERO is pleased to announce the opening of their newly redesigned flagship showroom inside the A&D Building. The showroom has been designed in collaboration with noted Italian architect, Mario Mazzer.

President Dario Snaidero says, "In the 23 years I have been at the helm of the organization, we already had the honor to become the #1 importer of European kitchens in North America. Now, for the first time, we will have a space where our clients can view products from our entire collection. This means not just the kitchens we have come to be recognized for, but also our growing complementary offering of luxury baths, closet systems, and interior doors." In addition, the showroom will include the new RIQUARDO series, designed by Mazzer exclusively for the United States market, as well as the VISION kitchen series, at right. The showroom is open and accepting appointments in full compliance with state and local health requirements.
