**COSMOPOLITAN** At The New Century Plaza in Los Angeles, Snaidero USA worked with international design firm Yabu and Pushelberg to incorporate their WAY kitchens system into the luxury multi-use hotel and towers. The kitchen systems are fully customizable with countertops available in granite and marble, laminate, stainless steel, and ceramic, among others. Cabinet configurations are endless, and are designed with ergonomic intelligence, with finishes in various lacquers, woods, and metals to create the perfect look for the kitchen.
