

A Bespoke Kitchen Embraces the Design Concept of Its California Home

Kitchen Designer: Reba Sams, [Snaidero USA Los Angeles Flagship showroom](#)
Project Architect: XTEN | Interior Design: IR Architecture
Developer: Mendez Clark Ventures Inc.

This gorgeous, U-shaped **400 sq ft kitchen** opens up to the dining and living area of a luxury residence on the West Hollywood Hills of Los Angeles, CA.

The design was built around the **custom natural Oak wood finish** the client chose to feature throughout the home to create a feel of continuity from room to room.

Extra Black matte lacquer (back wall cabinets and middle island), Titanium aluminum (toe-kicks and door channels), and dark porcelain (countertops) complement the light Oak wood to enliven the space with a **sophisticated contrast** of tones and textures.

The handle-free, **essential aesthetic** of the [Snaidero WAY cabinetry](#) lets the materials be the protagonist and shape the energy of the room.

The result is a unique, functional space that blends naturally with the home design but is also capable of taking center stage when needed.
