PRODUCT SPOTLIGHT

CABINA

Luxury Walk-In Closet System

Design **bespoke walk-in closets** through a versatile system that responds to how our clients like to display and access their fashion collection.

MAIN DESIGN FEATURES

The **walk-in closets** feature an open top and visible uprights in lieu of side panels to divide the open modules. This lightens the design, creating a continuous flow through the different sections of the closet.

The open modules can be paired with closed CORE wardrobe units with swing-open or bi-folding tempered or mirrored glass doors (framed) and solid doors in wood, lacquer or melamine finishes.

Dimmable motion-sensor and remote-controlled LEDs fitted on the back of the uprights diffuse the light into every corner of the closet, casting an irresistible ambiance that extends into the room.

ISLAND UNIT

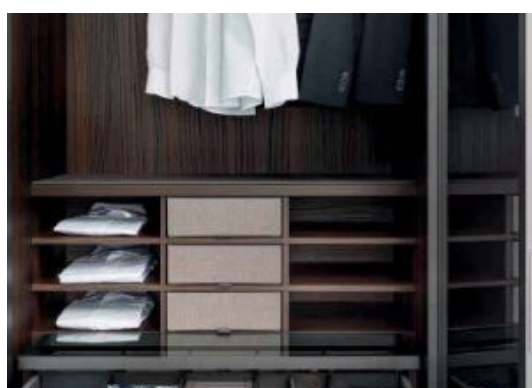

The double-sided island unit, designed to sit in the middle of the closet, is customizable with glass-top drawers, open elements, leather inserts, and integrated stools. Featured finishes: Easy Walnut veneer and piqué melamine.

CUSTOMIZATION

Accessorizing modules include but are not limited to:

between-shelves compartment grids in two available heights, with or without extractable drawers covered in fabric

double-row shoe racks and full pull-out trouser rack with anti-slid rails finished in easy leather

full pull-out drawers with push opening in elegant wood veneers, with the top drawer available with a glass cover

drawer interiors divided into compartments with easy leather inserts

MADE IN ITALY

All pieces and units are hand-crafted in Italy using state-of-the-art technologies, giving the guarantee of an **authentic made-in-Italy product**.
