“I immediately saw a great piece of historic architecture we could bring back to life.” —JIM RILL

Shawna Dillon designed the kitchen (left) with luminous, white-lacquered Snaldero cabinetry and a glass backsplash that reflects natural light. In contrast with the lacquer, cinnamon walnut paneling on the new island (top) and a wall of cabinetry (center) reflect a mid-century aesthetic. The bar stools are by Bertola and the countertops (above) are Caesarstone.
