Snaidero

January 22, 2018

Snaidero USA presents the ELEGANTE Bespoke kitchen made from H01 Heartwood, an eco-friendly selection that is more resistant, more durable and less permeable than other types of wood. Designs are customized with the choice from seven cabinetry models from the System collection and the pairing of H01 Heartwood with **Snaidero**'s selection of ceramic finishes, tailor-made and standard lacquers (matte and high gloss), high gloss metallic lacquers, mica-based lacquers, glass (matte and bright), melamine and high gloss laminate. With exclusive and precious finishes and a plethora of design combinations, the ELEGANTE Bespoke collection, available only for the American market by Snaidero USA, offers personalization in high-end kitchen design.
