Snaidero USA Lands SeaGlass Jupiter Island Multi-Housing Project

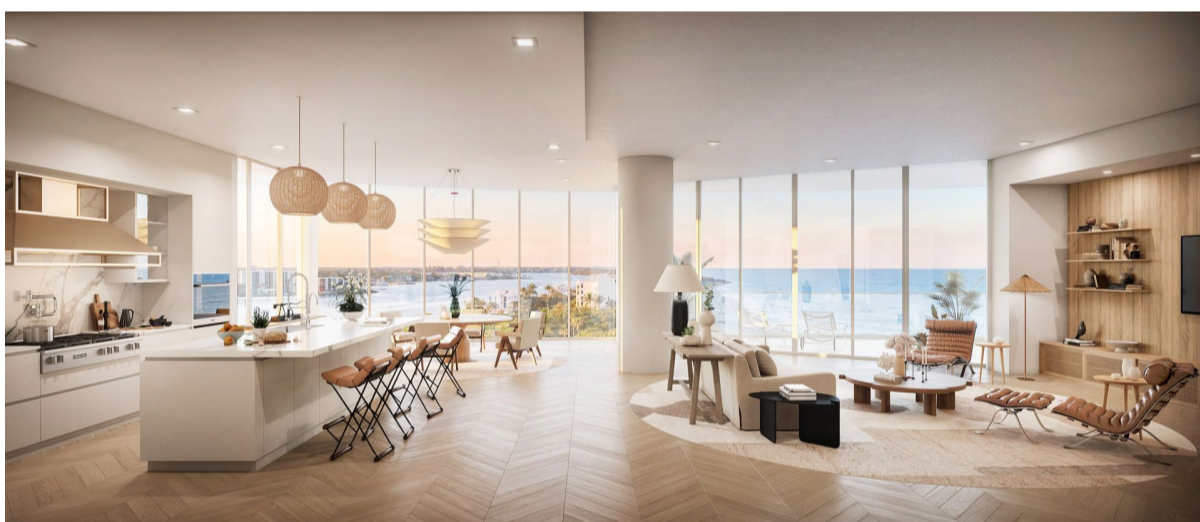

Our company has been selected to provide kitchens and baths for the **21 luxury oceanfront condos** of **SeaGlass**, the new **Fontainebleau Development** project in Jupiter Island, FL slated for completion in Fall 2022.

In the kitchens design, the essential aesthetics of Snaidero's **WAY cabinet style** are grounded by the more classic **FRAME line** (featured in elements like the visually-important hood and glass cabinets). The contrast provided by the **Reflect White matte lacquer** and **ELEGANTE Bespoke Heartwood** finishes makes the kitchens at once contemporary and timeless.

CRAFT and **CALIX** vanities by Novello are the choice for the condos' bathrooms.

Like the **210+ high-end multi-housing developments** our company has had the honor to serve, SeaGlass offers exceptional architecture (by **Swedroe Architecture**), curated interiors (by **Champalimaud Design**), and a premium lifestyle experience in an exclusive location.

So, it's no surprise **the residences sold out quickly**, attracting affluent design-savvy buyers owning multiple homes around the world.

Described as a gated residential sanctuary and an oasis of relaxation and pleasure, the project enjoys the benefits of being on the southernmost barrier island of Florida's east coast.

With the highest per capita income in the US, Jupiter Island is a wildlife refuge and natural preserve, giving its residents the opportunity to **experience the Floridian landscapes in their most pristine state**. It also provides easy access to world-class entertainment, museums, historic landmarks, shopping and dining.

"Fontainebleau Development has been creating amazing lifestyle experiences all across the United States for 50 years" says **Dario Snaidero, President of Snaidero USA**. "We are elated to contribute to this new project, after our recent collaboration with them for Turnberry Ocean Club in Sunny Isles Beach."
