D'ART Our New Luxury Bathroom Line by Novello

Designed by Studio Plazzogna

The **D'ART design concept** ushers warm and sophisticated atmospheres into the modern bathroom, bringing its aesthetic closer to the living areas of the home.

VANITY STYLES

The D'ART vanities come in either a smooth or plisse' style which, when combined, create a contrast of texture even within the same finish.

The two styles are also available for the front of the 5.9" (15 cm) , 8.6" (22 cm) and 10.6" (27 cm) high washbasins.

The cabinet doors are either flat with integrated channel or minimally framed by an embossed profile that expands at the top to double as handle.

Vanities are available as floating, fitted with legs, or freestanding.

OPEN SHELF SYSTEMS

Open shelves are becoming a staple of modern interiors and, in D'ART, they are an essential feature.

Metal and wood shelves can be used individually, in pairs, or in units mounted on LED-fitted panels - with or without an integrated towel rack – adding to the creative possibilities of the design.

TALL CABINETS

Tall and slim, the vertical cabinets have a totem-like feel with their optimal open storage space positioned at the bottom and in the middle and the elongated side panels framing the composition.

A variety of mirror shapes complete the design, integrating perfectly with the other elements and adding another refined touch of personality to every D'ART bathroom.

DRAWER AND BASKET ACCESSORIES

D'ART includes a storage system of solid oak wood containers in 7 different sizes, ranging from one to four compartments.

The containers can be arranged and moved around based on needs to help keep the contents of drawers and baskets organized.

MADE IN ITALY

All pieces and units are hand-crafted in Italy using state-of-the-art technologies, giving the guarantee of an **authentic made-in-Italy product**.
