QUARI

Our luxury bathroom line by Novello

Designed by Architect Stefano Cavazzana

The **QUARI baths** find their design roots in **Venetian artisanship**. They retain the timeless beauty of its finishes and craftsmanship techniques, while reinterpreting them to meet modern aesthetics and functionality.

VANITY STYLES

An understated **aluminum frame** profiles the vanities and carries over into the structure of the open storage units. The frame finish can be used for contrast or to tie together the vanity and top finishes.

MATERIALS

Materials are the real protagonist of the QUARI baths: from the **glass** that Venetians have elevated to art form to the **Chestnut** and **Walnut** veneers sourced in the Venice region; from **metal** coatings applied by hand to highly-resistant eco-friendly **stones, cement**, and laminam surfaces.

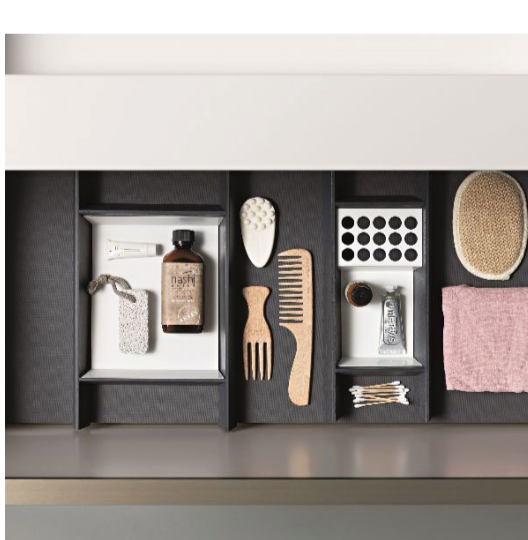

Completing the offering is a range of terrazzos.

A composite material once used for the floors of elegant Venetian palaces, **terrazzo** is made through a complex craftsmanship process that mixes marble and stone fragments with lime or cement.

COMPLEMENTARY DESIGN ELEMENTS

Also part of the QUARI designs are boiseries, open wall elements, accessorized baskets with pull-out drawers, and backlit mirrors of different shapes.

Washbasins can sit on the top or be integrated into it, without or without an anti-spill lip along the perimeter.

MADE IN ITALY

All pieces and units are hand-crafted in Italy using state-of-the-art technologies, giving the guarantee of an **authentic made-in-Italy product**.
