Snaidero USA Reopens NY Showroom

NEW YORK — Snaidero USA New York has re-opened its doors after completing a redesign of its 5,000-sq.-ft. showroom, the company announced.

The project, initiated by company president Dario Snaidero, ushers in a new style of showrooms that spotlights products from all three of Snaidero’s collections, including luxury kitchens, baths, sideboards, closet systems and interior doors,” the company said. The redesign was executed by award-winning Italian architect Mario Mazzer, corporate officials added.

“With its sophisticated ambiance, Snaidero USA New York represents our continuous commitment to bringing the ultimate expression of Made-in-Italy design, and the ‘dolce vita’ lifestyle that comes with it, to high-end homes all over the Americas,” Snaidero said. “Mario Mazzer has created an immersive space that allows visitors to explore the craftsmanship and functionality that our designs are known for, as well as our curated selection of finishes.”

Snaidero USA’s flagship New York showroom serves the tri-state area. It is located on the eighth floor of the A&D Building, at 150 East 58th St., New York.
