SNAIDERO USA RECOGNITION

H01 ELEGANTE Bespoke by Snaidero USA Wins 2019 Green GOOD DESIGN Award

H01 Heartwood, part of Snaidero USA's ELEGANTE Bespoke luxury cabinetry collection, was recently selected as a 2019 Green GOOD DESIGN Award winner. The annual program aims to **identify the world's most important examples of sustainable design** and recognizes which companies are doing the best job at developing design products, projects and architecture that respect the environment.

Like all the models in the **ELEGANTE Bespoke collection**, H01 is a **very high-end cabinetry system for kitchens and baths** developed by Snaidero USA exclusively for the Americas. H01 features **Heartwood**, a **unique and eco-friendly wood finish** that is more resistant, more durable and less permeable than other types of wood.

- It comes from **verified sustainable sources** and source forest replenishment (backed by a FSC Chain-of-Custody certification).
- It **complies with the strictest world standards for formaldehyde emissions** (the California Air Resources Board Phase II, the EPA's TSCA Title 6, the CATAS Quality Award certification, and less than half of what required by the LFE E1 international certification).
- The cabinets also use **water-based coatings** instead of the toxic solvent-based ones, reducing the emission of Volatile Organic Compounds (VOC) by 95%.

The Green GOOD DESIGN award is a **very specialized edition of the original GOOD DESIGN**, the prestigious program founded in Chicago in 1950. It is given by The European Centre for Architecture Art Design and Urban Studies and The Chicago Athenaeum: Museum of Architecture and Design out of hundreds of submissions from around the world.

PRODUCT NEWS

Snaidero VISION by Pininfarina Now Available in the Americas

VISION, the latest kitchen design collaboration between Snaidero and **Pininfarina**, is now available to order in the Americas **exclusively through the Snaidero USA retail network**.

The VISION concept presents the kitchen as a space where imagination and technical innovation come together to create an **inspiring, user-centered space with a distinct identity** unlike anything the market has ever seen. At the heart of the design is a **unique visual mark** that is carried out across multiple elements, echoing through the space, making it fluid and dynamic by connecting the different functional areas and creating stylistic symmetries.

VISION had its world premiere at last year's Eurocucina and **won a GOOD DESIGN Award at the end of 2018**.

INSTALLATION AWARD

Beverly Hills Project Wins Sub-Zero, Wolf, Cove Award

Congratulations to **Wendy Williams**, one of the designers of **Snaidero USA Los Angeles**, on **winning the 2017-2018 Sub-Zero, Wolf, and Cove West Kitchen Design Contest** for her Beverly Hills installation!

The gorgeous kitchen features Snaidero **IDEA** and **CODE** cabinetry in the modern combination of Mink Elm wood, Lead Grey matte mica lacquer, Platinum Grey and Pewter Grey melamine.

The judging panel - made up of seven esteemed design professionals from around the world - picked the winners based on the functional and aesthetic use of Sub-Zero and Wolf products plus overall kitchen aesthetics and design functionality.

SNAIDERO USA EVENT | FEBRUARY 2018

Coral Gables Showroom Participates in Annual Tour of Kitchens

As in years past, the **Snaidero USA Coral Gables showroom** took part in the popular Tour of Kitchens, an annual event **organized by the Coral Gables Community Foundation to benefit the Culinary Arts Program at Coral Gables Senior High School**. The tour includes an impressive self-guided visit of local private home kitchens and tantalizing culinary stops.

The tour participants visiting the showroom were able to enjoy Snaidero's latest kitchen designs. One lucky guest was the auction winner of one of our kitchen displays!
